

INSTRUCTIONS

Print this out on thick paper and get some help to cut it out on the outside lines.

Fold it on the dotted line and glue or tape the two sides together. Now you have your very own “Dynamic Door Knob Hanger”.

Use the pp (pianissimo) side when you need some quiet time, want to play soft games or a nap. And use the ff (fortissimo) side to let people know that it is time to crank up the music and have boisterous fun!

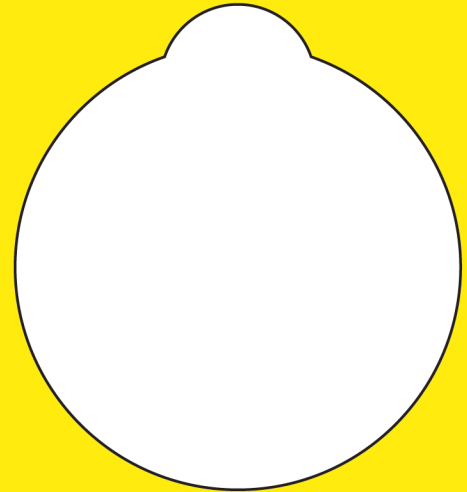

pp

***pianissimo means
very soft***

***Keep it on
the low down.***
